**Commission Work Programme 2015**

Thank you for your letter dated 6 February in relation to the Commission's annual work programme. The paper included alongside it was of great use to the Committee, and we have considered it alongside our own scrutiny of the work programme.

We have now written to President Juncker, and I hope that the questions we have raised are congruent with the areas of concern that you have raised. I will share the response with you, when we have received it. I attach a copy of our letter for your reference.
