Dear Sir/Madam

I am a 14 year old school boy who attends [REDACTED].

I am worried about what is happening in my home area. I do not want to see industrial scale development that the wind farms will bring.

I attended the protest rally in Cardiff with a lot of other young people. We feel very strongly about this issue and are worried about our future as we want to live and work in this beautiful county.

Government policy seems to be very confused as both Westminster and Cardiff have policies affect renewables, no one is looking at the combined effect of the proposed wind farms whether they are being developed due to Westminster or Cardiff policies. Joined up thinking needs to be done urgently and a review needs to take place of the cumulative effects particularly on transport and jobs.

I hope that the Inquiry will make some strong recommendations to help protect my future and those of my fellow students.

Yours faithfully

[REDACTED]
Jack Watkins
