I am working parent of two kids, despite my hard work and long hours unfortunately I am in situation where I can afford shelter and food on table for my kids.

Luckily this year my daughter qualified undergraduate degree and made me proud. Now she has been accepted for post graduate; MA studies in Cardiff University.

To my best ability trying to support her but unfortunately limited financial help for teacher training and sociology but for other subjects no financial official help is available for her in Wales to continue her studies.

Government loans are available to England post graduate students but no such scheme for welsh students.
