21 July 2017

Dear

David,

Further to my letter of 21 October last year regarding Petition P-04-667: Roundabout for the A477/ A4075 junction, I am writing to provide you with an update.

We have now received the Stage 4 Safety Audit report, however, we have some further details to discuss with the original designer before the audit process is completed.

The improvements at this junction have all been designed and constructed in accordance with standards and guidance set out in the Design Manual for Roads and Bridges. The original concerns from RSA1-3 have been resolved, however, the report highlighted some unusual vehicle manoeuvres at the junction and we need to understand why these actions are occurring.

Therefore, we will be undertaking further surveys at the junction to monitor and consider what further action, if any, is required.

*Yours ever,
Ken*
